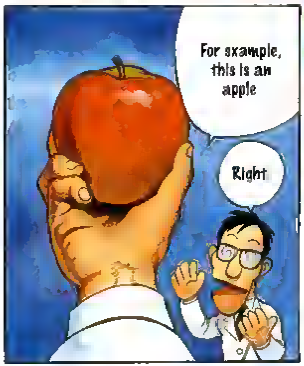
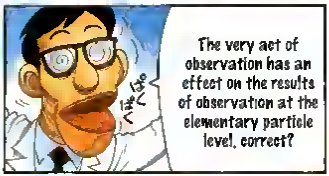
Dr. Nishiwada's Scientific Lecture
No. 1 - Fun with Apples
It's a basic principle of quantum theory, isn't it?
Yasukawa Do you know the Uncertainty Principle?

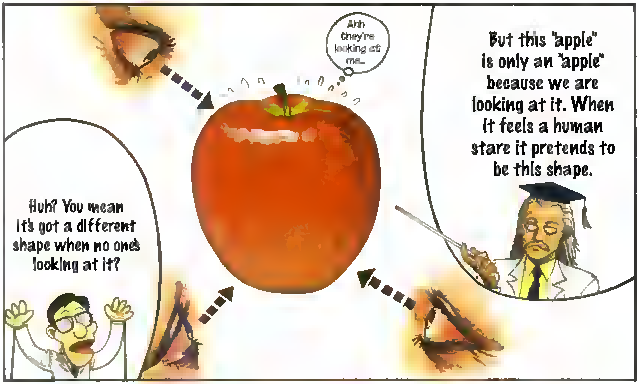


For example, this is an apple
Right

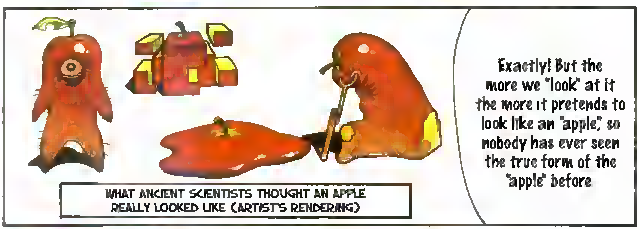


ぱく
The very act of observation has an effect on the results of observation at the elementary particle level, correct?

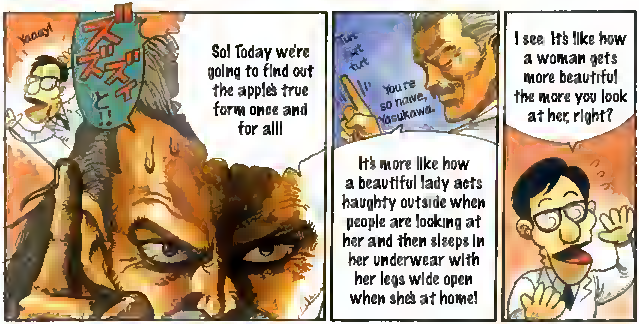
In other words the act of "looking" changes the "object" being looked at.



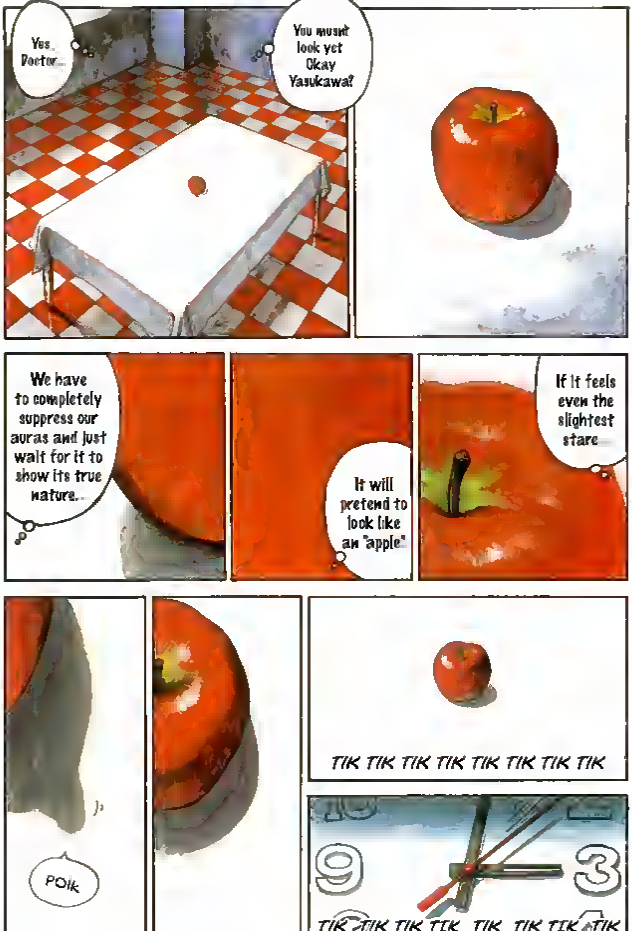
Ahh they're looking at me...
But this "apple" is only an "apple" because we are looking at it. When it feels a human stare it pretends to be this shape.
Huh? You mean it's got a different shape when no one's looking at it?



Exactly! But the more we "look" at it the more it pretends to look like an "apple," so nobody has ever seen the true form of the "apple" before
WHAT ANCIENT SCIENTISTS THOUGHT AN APPLE REALLY LOOKED LIKE (ARTIST'S RENDERING)



Yaaay!
ズズズイと!!
So! Today we're going to find out the apple's true form once and for all!
Tsun tsun tsun
You're so naive, Yasukawa.
It's more like how a beautiful lady acts haughty outside when people are looking at her and then sleeps in her underwear with her legs wide open when she's at home!
I see. It's like how a woman gets more beautiful the more you look at her, right?



Yes, Doctor...
You must look yet Okay Yasukawa?
We have to completely suppress our auras and just wait for it to show its true nature...
It will pretend to look like an "apple."
If it feels even the slightest stare...
POik
TIK TIK TIK TIK TIK TIK TIK TIK
9
3
TIK TIK TIK TIK TIK TIK TIK TIK

NOW!!
Ooh..
Nu nu nu nu..
UNFORTUNATELY, TODAY'S EXPERIMENT ENDED IN FAILURE. BUT DON'T GIVE UP, KISHINADA! KEEP FIGHTING, KISHINADA! JUST ONE MORE STEP TO GO BEFORE YOU REACH A HIGHER DIMENSION!
Ahh that was scary
Science Lecture: Physics III/End
We were so close!
Drat!

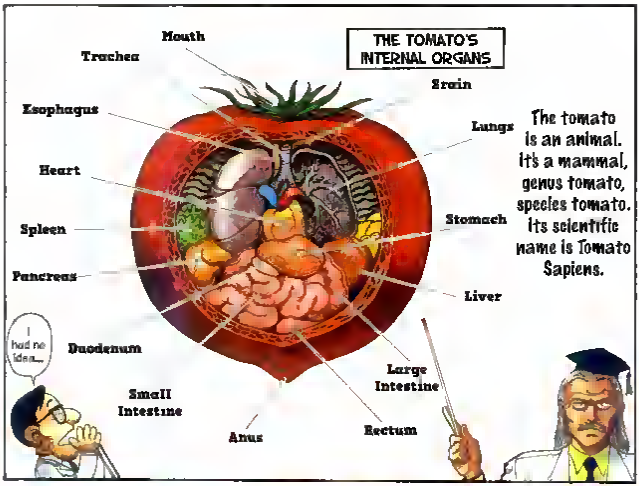
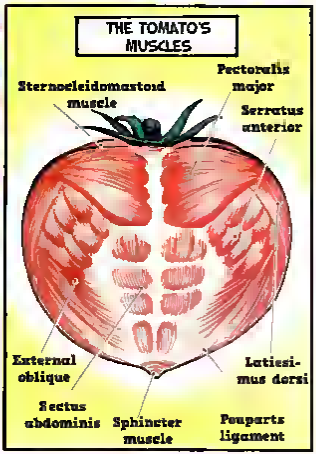
No. 2 Go with Tomatoes!
Hello everyone How are you? Today we're talking about tomatoes!
Nowadays many people think a tomato is a vegetable
But that's wrong
Eh!? Really!?

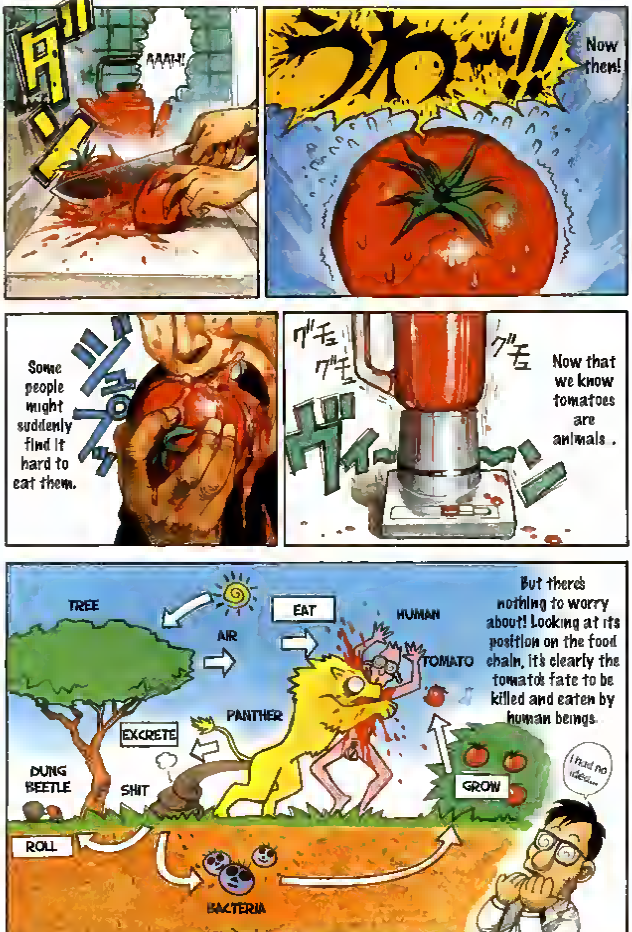


THE TOMATO'S INTERNAL ORGANS
Mouth
Trachea
Brain
Esophagus
Lungs
Heart
Spleen
Stomach
Pancreas
Liver
Duodenum
Large Intestine
Small Intestine
Anus
Rectum
The tomato is an animal. It's a mammal, genus tomato, species tomato. Its scientific name is Tomato Sapiens.
I had no idea...

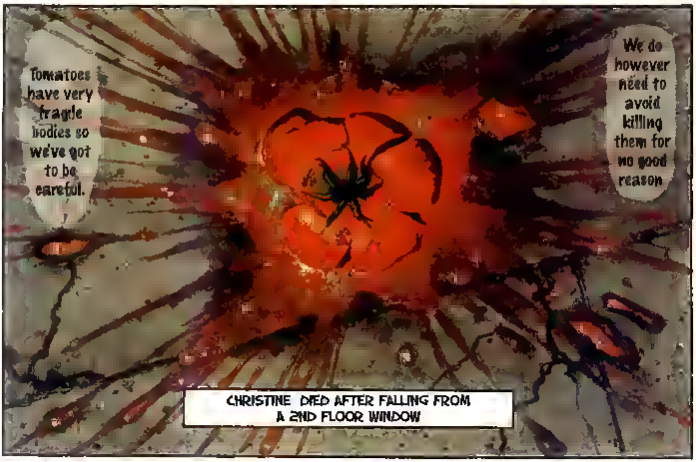
Take a good look next time you eat a tomato.
Is it? It's true!
Doctor, your sweat



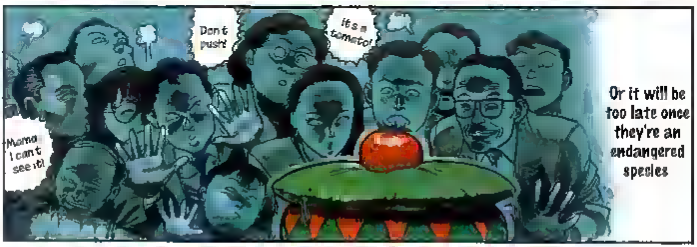
THE TOMATO'S MUSCLES
Sternocleidomastoid muscle
Pectoralis major
Serratus anterior
External oblique
Latissimus dorsi
Rectus abdominis
Sphincter muscle
Pouparts ligament

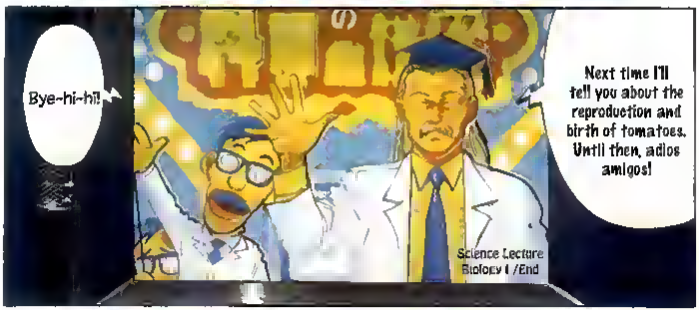


AAAH!
Now then!
Some people might suddenly find it hard to eat them.
Now that we know tomatoes are animals.
But there's nothing to worry about! Looking at its position on the food chain, it's clearly the tomato's fate to be killed and eaten by human beings.
TREE
AIR
EAT
HUMAN
TOMATO
PANTHER
EXCRETE
DUNG BEETLE
SHIT
GROW
ROLL
BACTERIA
I had no idea...



Tomatoes have very fragile bodies so we've got to be careful.
We do however need to avoid killing them for no good reason
CHRISTINE DIED AFTER FALLING FROM A 2ND FLOOR WINDOW





Bye~hi~hi!
Next time I'll tell you about the reproduction and birth of tomatoes. Until then, adios amigos!
Science Lecture Biology I /End
